

Remote Desktop Application

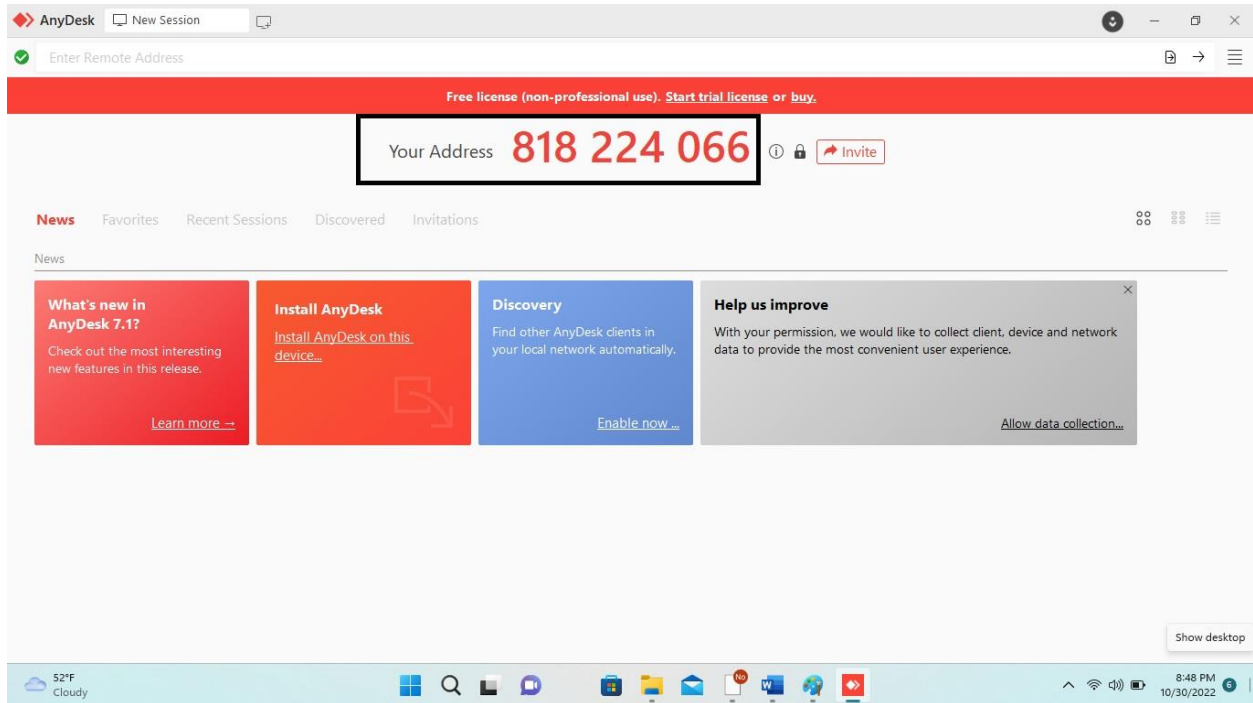

- Anydesk is one of the best and easiest application that you can remotely control to another device (PC = PC, mobile = PC, or PC = mobile)
- Now let's focus on Mobile = PC

Step 01: Download Anydesk in your PC

<https://anydesk.com/en/downloads/windows> and mobile and install it

Step 02: Now we want to control our PC through our mobile, so take the PC's address number and enter the mobile

Step 03: Finally accept and then you can remotely control your pc
